

Lesson plan

Main Point: Grow!

Basic Idea: God wants all people to grow in Christ.

How we get there: "children," "young men," "fathers."

Start out Ephesians 4:15-16 to lay out that we should all be growing in our love for Jesus. Then, after the teaching, let the kids color their pages.

Examine Ephesians 4:15-16

1. How will we speak?
2. How are each of us to grow?
3. What effect will our growth have on the church?

Help the children understand that God wants them to continually grow in their love for Jesus. God wants even their parents (and even their Children's Church teachers) to keep growing too. Share with them ways that they could grow.

Activity:

Coloring

The kids can color the coloring pages (provided) with the crayons (provided). Read to the children about the growth rates of bamboo and blue whales. (You may want to provide a reference point for 90 feet and 20 pounds).
